Media System AIP

The Adagio Media System AIP maximizes your home theater viewing experience with Advance Image Processing.

All of the features of the standard Adagio Media System, plus high-definition digital video processing to optimize the performance of a complete HD system. Whether viewing high-def HDMI/HDCP or standard television, every input is scaled to match the flat panel or projection display perfectly. Utilizing Gennum Visual Excellence Processing™ with TruMotionHD™ fully adaptive deinterlacing, both SDTV and HDTV sources are displayed with exceptional image sharpness and detail for astounding realism.

Available Models:

AMS-AIP Advanced Media System with dual AM/FM tuner

AMS-AIP-SR Advanced Media System with AM/FM and SIRIUS

AMS-AIP-XM Advanced Media System with AM/FM and XM

SIRIUS SATELLITE RADIO

SATELLITE RADIO

Media System

The Adagio Media System delivers a high-performance surround sound and multi-room audio distribution solution in one elegant yet cost-effective package.

State-of-the-art surround sound processing and a powerful 7-channel amplifier deliver jaw-dropping sonic performance. Clever signal steering and advanced Audyssey MultEQ® signal processing realize the full potential of the home theater speaker system for any type of listening experience. An abundant array of HDMI and analog AV inputs handles a full complement of high-end home theater and audio sources with ease. Audio distribution is even built in to support up to 6 additional rooms.

Available Models:

AMS Media System with dual AM/FM tuner

AMS-SR Media System with AM/FM and SIRIUS

AMS-XM Media System with AM/FM and XM

SIRIUS SATELLITE RADIO

SATELLITE RADIO

Entertainment System

The Adagio Entertainment System provides high-performance multi-room audio distribution with expanded functionality, more inputs and control ports, and enhanced front panel.

The Adagio Entertainment System delivers a complete, cost-effective solution for high-performance multi-room audio distribution. Right out of the box, the AES provides sophisticated audio signal routing, processing, and amplification for up to 6 rooms, with extensive control from an enhanced LCD-driven front panel and a choice of room controllers. Up to 3 dual radio tuner cards can be installed in the AES to enable combinations of up to 6 AM/FM, XM and Sirius Satellite Radio tuners. The "Group" feature makes it simple to combine multiple rooms or switch into whole-house party mode.

Available Models:

AES Entertaiment System with dual AM/FM tuner

AES-SR Entertaiment System with AM/FM and SIRIUS

AES-XM Entertaiment System with AM/FM and XM

SIRIUS SATELLITE RADIO

SATELLITE RADIO

CRESTRON

Audio Distribution System

The Adagio Audio Distribution System delivers a complete, low-cost solution for high-performance multi-room audio distribution.

Right out of the box, the Audio Distribution System provides sophisticated audio signal routing, processing, and amplification for up to 6 rooms, controllable from its LCD-driven front panel and a choice of room controllers. Built-in AM/FM and Satellite radio tuners allow listeners in different rooms to enjoy their own choice of music, news, sports and talk. More than just an audio distribution system, the AADS can actually grow as part of a complete home automation solution. With both Cresnet and Ethernet connectivity, the AADS allows nearly limitless expansion and customization with Crestron touchpanels, lighting, thermostats and so much more.

Available Models:
AADS Audio Distribution with dual AM/FM tuners
AADS-XM Audio Distribution with AM/FM and XM tuners

SATELLITE RADIO

Audio Expander

The Audio Expander is a high-performance audio distribution processor with integrated multi-channel amplifier.

The Adagio Audio Expander is designed to expand any Crestron Adagio system with 6 additional room outputs. Up to three expanders can be cascaded providing up to 24 zones of high-quality distributed audio. Six built-in powered Cresnet ports provide direct connectivity for keypads, Adagio LCD controllers and other Crestron devices.

Available Models:
AAE 6 zone Audio Expander

Audio Server

As the centerpiece for any home audio system, the Adagio Audio Server provides an easy, powerful way to store and enjoy your complete music collection.

The Adagio Audio Server stores thousands of hours of music, and lets the whole family instantly access any album or track from touchpanels, keypads and computers throughout the home. Browsing artists and titles, loading new CDs, and creating playlists is easy using the simplified onscreen menu. Album information and cover art is downloaded automatically via the Internet from the Gracenote CDDB Music Recognition Service. Multi-room outputs allow listeners in up to four different rooms to each enjoy their own selections, while still more listeners can stream audio on any computer using their favorite media player application.

Available Models:
AAS-1 Audio Server 1 output, 80GB
AAS-2 Audio Server 2 outputs, 160GB
AAS-4 Audio Server 4 outputs, 250GB

Adagio is the most award-winning family of products in the industry.

Enjoy

your music your way

Adagio®

Adagio brings all your entertainment media together into one simple system and delivers it wherever you are – anywhere in the house.

Adagio provides basic out-of-the-box functionality and plug-and-play support for additional zones, room controllers and sources such as satellite radio, the Adagio Audio Server and the Crestron interface for Apple® iPod®. Enhanced features and custom configurations provided by your local Crestron installer.

And entertainment is just the beginning. Adagio features "Crestron Inside" for seamless integration with Crestron Total Home Technology solutions. Add Crestron touchpanels, lighting and thermostats at any time. No other audio distribution system offers the power, flexibility and expandability of Adagio.

Ask your Crestron provider about Adagio packages and custom solutions.

Enjoy your music and movies your way with Adagio.
